

Mama

The Monoclonal Antibody Medications in inflammatory Arthritis:
stopping or continuing in pregnancy (MAMA) study

Thank you for enrolling in the MAMA study!

This card is a quick reminder to let you
know when we will be contacting you.

Please scan the QR code to
access the MAMA App User
Guide.

If you would like further information, please speak
to a member of the clinical team or contact the
MAMA Coordinating Centre:

T: 01865 743859 E: mama@npeu.ox.ac.uk

W: www.npeu.ox.ac.uk/mama

Here is a quick reminder to let you know when we will be contacting you.

When you join the study:

You should shortly receive a link via email to complete your first **MAMA questionnaire**. Please complete this as soon as you can.

During your pregnancy:

Monthly

We will ask you to complete a short questionnaire each month during your pregnancy on the app.

After your baby is born:

Around 1 month (for infant immune response element only)

If you agreed to be contacted about the 'infant immune response' element of the study, we will contact you by telephone or email. You will have the opportunity to ask questions and decide if you would like your baby to take part.

3 months

6 months

12 months

At 3, 6, and 12 months we will ask you to complete two questionnaires. One on the app **AND** one online via a link sent by email.

24 months after your baby is born:

We will be asking some participants to complete two final questionnaires both online via a link sent by email.

Until your baby is 12 month old, please use the app to tell us:

- if you or your baby are admitted to hospital
- if your baby is prescribed antibiotics
- about how your arthritis is
